

Marble Painting

Ages 5-10 · 20 min · Small group

Learning intention

This experience supports children to experiment with movement and cause-and-effect while expressing their own creative ideas.

You'll need

- Paper
- Paint
- 3-4 marbles
- A shallow lid, baking tray or shoebox to hold the paper

How to do it

1. Place a sheet of paper inside the lid or tray.
2. Drop small amounts of paint and a few marbles onto the paper.
3. Tilt and roll the container so the marbles travel through the paint, leaving trails.
4. Add new colours and keep rolling until the child is happy with their design.

Framework links

MTOP

- **4.2** Children and young people develop a range of learning and thinking skills and processes such as problem solving, inquiry, experimentation, hypothesising, researching and investigating
- **5.3** Children and young people collaborate with others, express ideas and make meaning using a range of digital technologies and media and communication technologies
- **1.2** Children and young people develop their autonomy, interdependence, resilience and agency

NQS

- **1.2.3** Child directed learning - Each child's agency is promoted, enabling them to make choices and decisions that influence events and their world.
